

FOR IMMEDIATE RELEASE

Compotech Ranks Among America's Fastest Growing Companies for the 3rd Year in a row, Ranking #3 in Maine and #31 in U.S. Manufacturing

Brewer, Maine - August 12, 2025 – Compotech, a rapidly growing defense technology and manufacturing company, has once again earned national recognition on the 2025 Inc. 5000 list of America's fastest-growing private companies.

This year, Compotech ranked **#1014 overall, #31 in manufacturing nationwide, and #3 among all Maine companies**, with a three-year revenue growth of **421%**. This marks the company's third consecutive year on the Inc. 5000, following a #990 ranking in 2023 and #1707 in 2024, a testament to its sustained growth, operational excellence, and ability to scale while delivering mission-critical solutions for the defense sector.

"Our growth is a direct reflection of the extraordinary talent and dedication of our team. At Compotech, we are committed to delivering cutting-edge solutions that strengthen our national security while creating high-quality jobs here in Maine. Being recognized on the Inc. 5000 list for the third consecutive year reinforces that we're not only building advanced technologies, but also a sustainable foundation for future innovation and impact." — **Jacques Nader, CEO, Compotech Inc.**

Over the past year, Compotech has expanded to more than **75 employees**, increased its Brewer manufacturing facility to over **50,000 square feet**, and opened a new office in **Orono** for its **Digital Solutions** business. The Orono location supports the company's vision to grow its **AI and Machine Learning** capabilities, complementing its established manufacturing and engineering operations in Brewer.

This Inc. 5000 recognition follows Compotech's recent **Innovation Award from the Bangor Region Chamber of Commerce** and its designation as a **2024 Composites World Top Shops honoree**, a distinction earned for outperforming peers on key operational metrics. Together, these accolades further cement Compotech's reputation as a Maine-based leader in engineering, technology, and manufacturing excellence.

55 BAKER BLVD. | BREWER, ME 04412 | UNITED STATES OF AMERICA

The Inc. 5000 list honors companies that demonstrate exceptional growth, adaptability, and leadership. For Compotech, this recognition reflects a sustained commitment to advancing U.S. defense capabilities through **scalable manufacturing, digital innovation, and close partnerships with military customers.**

About Compotech

Compotech is a Brewer, Maine-based defense technology and manufacturing company delivering value through smart manufacturing, advanced composites, and precision engineering. From research and design to production and deployment, its expertise spans additive manufacturing, software development, and precision engineering, enabling solutions tailored to the mission requirements of multiple branches of the U.S. military. By applying the Factory-of-the-Future concept, advanced robotics, and data-driven processes, Compotech strengthens national security while creating high-quality jobs and advancing technical skills in Maine's manufacturing sector.
